Kalpana Chawla (1962 – 2003)

American Astronaut who was the first Indian woman to go into space. She died on the space shuttle Columbia in 2003. From poverty-stricken, small-town India (Karnal) where illiteracy among women ran high, she expressed her desire as a young girl to “Reach for the Stars” and be an astronaut and ended up becoming an international role model.

Katherine Johnson (1918 – 2020)

African American NASA mathematician whose hand calculations determined the trajectory needed to get Apollo 11 mission to the moon and back. Prior to his mission of being the first American to orbit earth, John Glen asked her to personally double-check the computer's calculations before he committed. She played a key role in several NASA missions.

Marie Curie (1867 – 1934)

Polish-born Marie Curie was a pioneering scientist who coined “radioactivity” during her early work in that field; discovered two new elements (radium and polonium) and developed a portable x-ray machine. Her work in radiation in medicine led to early treatments for cancer. She is the first person to win two Nobel Prizes (in Physics and in Chemistry).

Garrett Morgan
(1877 – 1963)

African American, self-educated innovator, businessman and community leader who saved countless lives with his inventions of the first gas mask and the first three-position traffic signal. With only a formal fifth grade education, his inventions revealed a deep concern with the safety and welfare of his fellow citizens.

Antonia Novello

(1944 - Present)

First woman and first Hispanic to become Surgeon General of the U.S. in 1990. Educated and trained in pediatrics and public health, she brought to her work a strong empathy for people without power in society -- emphasizing improved health conditions and access to medical care, especially for women, children and minorities.

Mario Molina

(1944 - 2020)

Mexican Nobel prize winner in Chemistry (1995) who played a vital role in the discovery of the threat to Earth's ozone layer from chlorofluorocarbon gases called freons. Freons are used in spray cans and refrigerants in refrigerators, and his work led to limiting their use and slowing the ozone depletion. Quality of life improved for millions of people.

Alfred Nobel

(1833 - 1896)

Swedish inventor of dynamite and other explosives whose will left his vast fortune to a fund which would “annually be distributed in the form of prizes to those who, during the preceding year, shall have conferred the greatest benefit to mankind.” It is believed Nobel had moral regrets over the increasingly lethal uses of his inventions in war.

A Message From The Publisher

The New Year is a Celebration of Town Planner Community Calendar's Eighth Year of Publication! Along with continuing calendar editions in Riverside and Corona, 2025 marks the inaugural calendar for the city of Eastvale!

The Town Planner continues to be a positive force in the community. In the 2025 Riverside edition, the theme is "Always Strive to Do Better.... People Who Will Inspire Our Children." The theme stemmed from my affinity to read about little-known, but inspiring historical figures whose contributions for the betterment of society were nothing short of remarkable. I want our children to believe if they pursue their passions, they may become one of these extraordinary individuals one day. I hope the stories in each month of the Calendar will help contribute to our children's inspiration to do better. Fittingly, the Calendar cover has my son Karson along with my nephew Ashton – two outstanding young men who excelled in academics, sports and life in general. You will not meet two finer young men.

The Calendar is an annual gift to Riverside residents. It is an invaluable resource for critical service phone numbers, school schedules, and local events. Space has been donated to nonprofits doing tremendous work in our communities. If you like using the Calendar and supporting local nonprofits, then please give the businesses in this Calendar your due consideration because the Calendar only continues each year with their ongoing support.

Much appreciation to Chamber President Nicholas Adcock and his dedicated team for providing so many avenues to grow my business and for their overall unwavering support. I have also enjoyed building some awesome relationships with fellow Chamber members.

Blessings to you for 2025. I hope the year turns out to be your happiest and most productive yet.

Sincerely,

Lester Li, Owner/Publisher

Shannon Martin, Owner of The GuudSeed Company

"Goodwill is Universal and Unlimited"

Shannon Martin, founder of The GuudSeed Company, began her entrepreneurial journey fueled by friendship, faith, and a belief that Goodwill is Universal and Unlimited. A licensed Vocational Nurse with 15 years of experience and a Certified Holistic Trichologist for four years, she operates a Holistic Salon and Wellness Center in Riverside's Magnolia Center. Her salon specializes in natural hair care, hair restoration, and overall wellness – offering custom-made, organic products alongside holistic treatments.

Shannon's inspiration to create The GuudSeed Company came from a deeply personal mission. When a close friend faced breast cancer, Shannon began crafting and selling natural products like wine jelly and shea butter to help cover her friend's medical expenses. This act of kindness reflected her core belief: goodwill transcends race, culture, and other divisions. She also values anonymous giving, with the "UU" in GuudSeed symbolizing Universal & Unlimited and honoring her friend's courageous battle with breast cancer.

Building The GuudSeed Company was not without challenges. Shannon faced financial struggles, personal loss, and the skepticism of others. Yet, her faith and determination helped her persevere.

She prayed for guidance, trusted her vision, and worked relentlessly, confident her efforts would attract the right clients.

The GuudSeed Company reflects Shannon's unique blend of medical expertise and a passion for holistic hair care. From addressing scalp health to promoting natural hair growth without harsh chemicals, her team creates customized treatment plans to help women feel confident in their natural hair. Plans also address wellness issues like hormonal imbalances, infertility, chronic pain, and stress—aiming for true, holistic health.

Shannon is offering a coupon for **FREE Scalp Analysis (\$75 value)** through this calendar. Visit her salon to experience the care and expertise of The GuudSeed Company today!

3726 Tibbetts St • Riverside • 951-616-4160

Welcome!

Riverside continues to thrive as home to a prosperous community with good quality of life and opportunities for growth for businesses and residents. Your chamber of commerce makes a difference by...

- **Helping local businesses and employers grow**, serve my customers and clients, and create more jobs for local residents.
- **Promoting Riverside as a dynamic place to live, work, learn, and play** for residents, families, and students.
- Helping members **develop deeper connections to the community** through business-to-business networking and business-to-consumer advertising.
- Working collaboratively with policymakers and elected officials to **develop policies that increase jobs and improve quality of life.**

Welcome to Riverside! We do business here!

Nicholas Adcock
President/CEO, Greater Riverside Chambers of Commerce

www.riverside-chamber.com

SOLAR WAS AN ANSWER TO PRAYER

Matthew, a skilled, private math tutor for Inland Empire families of over 14 years, prayed for a new career that would bless the families he would serve & his future family at a higher capacity. That was a 2018 summer prayer & was answered just two short months later. His service to families at the dining room table in the comfort of their home for more than two decades has been a staple to how he has built his businesses. Matthew has been a full time Solar Sales Manager for more than 6 years serving home owners throughout Southern California, with a 100% 5-star rated profile by his customers. With 4 years of door knocking experience, Matthew understands the concerns, fears & thought process of home owners who deal with door knockers constantly. That empathy, awareness & support has been one of the main reasons why local home owners prefer that Matthew joins them & their referrals at the table for the best & most easy going solar experience.

Matthew is a man surrounded by family & friends that have become family along the way in life. In addition to his faith in Jesus, he attributes his growth, success & impact to the love, care & sharpening of those in his life over the years.

Matthew's solar career has blessed his Wife Lindsay, with the opportunity to be a stay at home Mom (which we all know is one of the toughest jobs) & home school their Daughter RoRo. Matthew has lived in the Inland Empire his entire life. He was once a radio talk show host, a one night only paid magician for a 60th High School Reunion & claims he grills the best burger around. His favorite memories can point to experiences with family & friends in the mountains around a campfire, in a chilling 35° lake, cabin & in the dark of the woods at night. As Matthew has been tremendously blessed & encouraged by this Bible verse, he hopes you will be as well → Matthew 7:7-8
