Louisiana's total crawfish production ranges between 175 million and 200 million pounds annually. The Acadiana region produces approximately 84% of the state's crawfish. So, Acadiana likely sells around 5 to 6 million sacks of crawfish each year (live or boiled).

Crawfish have **chelae** (claws) that are made up of a **propodus** (the big part) and a **dactylus** (the movable finger). Some will grow **extra small projections or ridges**, making it look like they have **3 (or more) fingers**.

Crawfish races is a **quirky Louisiana tradition** that's equal parts fun, family-friendly, and cultural. **They** have been around for decades in Acadiana and beyond. Many crawfish end up in a boiling pot after racing.

Thank You Sponsors!

These businesses make this calendar possible.
Please make it a point to thank them for supporting your community calendar!

For to us a child is born, to us a son is given; and the government shall be upon his shoulder, and his name shall be called Wonderful Counselor, Mighty God, Everlasting Father, Prince of Peace. Of the increase of his government and of peace there will be no end, on the throne of David and over his kingdom, to establish it and to uphold it with justice and with righteousness from this time forth and forevermore. The zeal of the Lord of hosts will do this.
