337-477-2428

Louisiana's total crawfish production ranges between **175 million and 200 million pounds** annually. The **Acadiana** region produces **approximately 84%** of the state's crawfish. So, Acadiana likely sells **around 5 to 6 million sacks of crawfish** each year (live or boiled).

Crawfish have **chelae** (claws) that are made up of a **propodus** (the big part) and a **dactylus** (the movable finger). Some will grow **extra small projections or ridges**, making it look like they have **3 (or more) fingers**.

Crawfish races is a **quirky Louisiana tradition** that's equal parts fun, family-friendly, and cultural. **They** have been around for decades in Acadiana and beyond. Many crawfish end up in a boiling pot after racing.

A Wish for you. Good Health, Good Luck & Happiness!
