Louisiana's total crawfish production ranges between 175 million and 200 million pounds annually. The Acadiana region produces approximately 84% of the state's crawfish. So, Acadiana likely sells around 5 to 6 million sacks of crawfish each year (live or boiled).

Crawfish have **chelae** (claws) that are made up of a **propodus** (the big part) and a **dactylus** (the movable finger). Some will grow **extra small projections or ridges**, making it look like they have **3 (or more) fingers**.

Crawfish races is a **quirky Louisiana tradition** that's equal parts fun, family-friendly, and cultural. They have been around for decades in Acadiana and beyond. Many crawfish end up in a boiling pot after racing.
