There are so many reasons to love your Town Planner Community Calendar! No matter what your reasons are, it takes A LOT of effort to bring you this annual calendar. It may be provided free to local families, but it's definitely not free to publish! And those costs are only rising.

If you're one of the many residents that has told us that they "feel lost" without their planner, we hope that we can count on you to help defer a small portion of the publishing costs by mailing a check of any size to the below address OR simply scan the QR code to contribute on Venmo!

- Andrew B. Robbins: The namesake of Robbinsdale, Robbins was born in New York but moved to Minnesota, where he invested in land and real estate. His vision for Robbinsdale was to create a town with modern amenities and a suburban feel while maintaining a connection to the nearby city of Minneapolis.
- Growth as a Suburb: Robbinsdale quickly grew as a commuter suburb
  due to its proximity to Minneapolis, aided by the early establishment of
  streetcar lines that allowed residents to easily travel to the city. This
  development turned Robbinsdale into one of the region's earliest
  examples of suburban planning.
- Early Industries: Robbinsdale was initially supported by various small industries, including milling and farming. In later years, the area also saw the development of medical and healthcare facilities, which became central to its identity.
- Unique Architecture: Robbinsdale is known for its historic buildings and charming architecture, with many structures dating back to the early 20th century, embodying a mix of styles that include Victorian, Colonial Revival, and mid-century modern.
- Whiz Bang Days: Robbinsdale's annual summer festival, Whiz Bang Days, has a unique origin! Named after Captain Billy's Whiz Bang, a popular humor magazine in the 1920s by local publisher Wilford Hamilton Fawcett, the event celebrates the town's quirky spirit with parades, games, and fireworks.
- Birthplace of Rock Legend Bob Mould: Robbinsdale is the hometown of musician Bob Mould, the influential singer, songwriter, and guitarist best known for his work with the punk band Hüsker Dü and later his solo career. Mould's impact on alternative rock music has roots in this small suburb
- Historic Water Tower: The city's iconic water tower, built in 1939, still stands tall over Robbinsdale. The Art Deco-style tower has become a symbol of the town, giving it a retro charm and a recognizable skyline feature.

# CRYSTAL FUN FACTS!

- Named for Crystal Lake: Crystal got its name from the once-clear
  waters of Crystal Lake, which was a prominent feature when the city was
  founded in 1866. While the lake is no longer there (it was drained in the
  early 20th century), the name lives on in the city's identity.
- Crystal Frolics: Crystal's signature summer festival, the Crystal Frolics, has been a community tradition for over 60 years! It includes carnival games, a softball tournament, live music, fireworks, and a beer garden, making it a must-attend event for locals every summer.
- Crystal Airport Legacy: Crystal is home to the Crystal Airport, a small
  regional airport mainly used for private planes, training flights, and
  smaller aviation operations. It's one of only a few metro-area airports,
  making it a fun spot for aviation enthusiasts to watch small planes take
  off and land.
- Green Space Galore: Crystal has a surprising amount of parks and green space, with more than 240 acres dedicated to parks and recreational areas. These include Bassett Creek Park, one of the city's largest parks with a picturesque pond, trails, sports fields, and picnic
- Historical Houses: Crystal has some houses dating back to the early 1900s, giving a glimpse into Minnesota's architectural history. While it's largely suburban now, you can still spot some charming older homes that reflect its early days as a rural settlement.
- Crystal Skate Park: Crystal is home to a few very old, small cemeteries
  that are somewhat hidden within the suburban landscape. These
  cemeteries have headstones dating back to the 1800s, adding a bit of
  mystery and local lore to the city's history.
- Hidden History in Forgotten Cemeteries: The city's iconic water tower, built in 1939, still stands tall over Robbinsdale. The Art Deco-style tower has become a symbol of the town, giving it a retro charm and a recognizable skyline feature.
- Fishing at Twin Lake: While Crystal may have lost its namesake lake, Twin Lake is a popular fishing spot for residents. Located on the city's border, it's a quiet, scenic place for fishing and kayaking and gives Crystal residents a way to enjoy lake life nearby.
