Town Planner Community Calendar

February 10, 2011

I love the coupons. Town Planner coupons have brought in 62 coupons to date. I have seen new customers and it brought back customers from the first year who went looking for my coupons when the 2011 edition came out. I know that Town Planner is being seen and used.

I love the way Bev has worked with me. She was able to work within my budget and was able to get the coupons where needed to bring in more customers.

I hope the Town Planner grows to include the whole town. I highly recommend the Town Planner as an effective advertising tool. Town Planner brings people through the door.
