

Dear Terie,

When you first approached me two years ago about the Town Planner I did not think it was the vehicle for us. But I want to thank you for patiently pursuing Brunswick Zone to advertise in the Town Planner Community Calendar.

Upon taking a closer look I was attracted to the Town Planner because of the pictures & the advertising opportunities. The calendar is colorful and stands out. As a community resource it is informational and has a lot to offer everyone who receives it. This being our first year advertising in the Town Planner I was soon excited about the exposure it would bring to my business

I am impressed with our redemptions so far, which are a lot more than I thought they would be. To date we have had almost a three to one ROI and we are only three months into the year! I love the exposure it is bringing us throughout the communities that we are participating in.

All in all the Town Planner has been money well spent and we have happily renewed for next year as well as expanded into another zone.

Sincerely,

Tim Mullen
General Manager
