

Business Services

June 14, 2010

Marcia,

Advertising in the with the Town Planner has been a great investment for me and my H&R Block Franchise as we established a new office in Durham! Of course the proof is in the number of clients the town planner drives thru the door. I am very pleased with the calls, inquiries, and more importantly, the client traffic that the town planner directed to our location this tax season! Many came with coupons in hand, helping our location to increase its year over year client base significantly! Needless to say, we have signed up for the new year already!
