

Our preschool is one of the newest in the area. We were approached by the Mt. Olive Town Planner our first year in business. Since then, four years now, our coupons and display ads have brought in more business than any other form of local marketing, and we have a small budget!

Now it is the one of the only forms of local advertising we utilize. Last year alone we enrolled over 12 new families from our coupons. The Town Planner has enhanced our reputation and increased our number of enrollments significantly. The ads cost a fraction of what other advertising options are charging. From an advertising perspective, there's no other way to get your name and image in front of as many people for a 365-day time span at a better price. I would recommend this venue to any local business in need of spreading their name into the community.
