The Town Planner is a **good way to get my name out there. People are becoming aware of me.** Many have come to me and my family saying that they've seen me in the Town Planner. I, also, have seen the Town Planner in the office of a lot of businesses.

I feel the Town Planner has established my business in the community. It is more than a marketing tool. They help me with my business by suggesting ways to help me maximize my exposure in the Town Planner.
