Brian Burnstein  
Town Planner

Dear Brian,

I have been a member of Town Planner calendars for five years now. I really enjoy the quality of the artwork and the amount of information found within the calendar, local events, sports etc. It makes the calendars appealing and very useful. I have also found that people do respond to the advertisements that I have placed over the years and I have had clients tell me that they enjoy getting the calendars. Thanks again to Town Planner for helping me improve the image of my business.
