

April 4, 2015

Dear Richard,

Every day we get 2 coupons from our ads in the town planner calendar. It works better than anything else! We post the calendar in our store and draw repeat business from telling people to come see us again with a coupon from the calendar. We're a small store so the only people we see are locals and there's definitely no better way to get our residents attention then by participating in their community calendar.

We look forward to much more business thanks to Rich and the Town Planner.

Margaret
