

Lawrenceville Family Dentistry

This is our first year in the Town Planner Calendar. We were excited to advertise in what we think is a useful resource that our prospective patients would keep in their homes for the entire year.

When I first saw the finished calendar I was pleased with how it turned out but more importantly how we began receiving calls.

It is a useful tool in regards to attracting new patients as well as encouraging existing patients to have procedures such as Zoom Whitening done that they wouldn't have otherwise considered. With the coupons we find that our patients use them and recommend them to their friends to use.

I like the Town Planner because it is useful for me to access other businesses, school schedules, holidays and all the other good stuff that is included.

Our experience with the Town Planner has been excellent and I would recommend it to any business.

Sincerely,

Linda Trotter
Office Manager
