

March 30, 2015

Richard,

It's only the end of February and we've already got 2 new clients because of our ads in your calendar! In our business it's not very easy to get new clients. The competition is very tough and people have a lot of options when it comes to fitness and personal training. Your calendar positioned us right in front of the eyes of all our local valuable prospects and because of that "WE" are the destination they think of when they think fitness.

We can't thank you enough! Eagerly looking forward to all the new business that comes our way for the rest of the year considering we're only 2 months and in and seeing GREAT RESULTS!

Kind regards,

Zak Rivera
