Dear Tony and Julie:

Advertising in the Town Planner Calendar has been a great way to build a name for myself in my community.

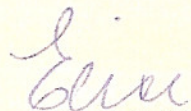

The help I received to create an eye-catching ad was wonderful. Julie was responsive and patient when I changed my mind several times. I love the end result.

As an advertising vehicle, this is much better than the phone book because it is on the wall and people look at it, and my ad, everyday for a full month or more. Clients have told me this is the reason they called me, even though they had considered going to someone else for the same services.

I definitely plan to continue advertising in the Town Planner.

Very truly yours,
