This is my first-year advertising with Town Planner and I am already super impressed with how it is working for me.

As an advertising vehicle the Town Planner stands out. The Town Planner hangs on the wall and allows me to be seen for all days of the month. This helps to make my brand recognizable and builds my name in the community which is super important for an attorney.

Clients have told me they have called because they have seen me in the calendar.

I also love that I get the extra exposure of digital, my ad in the weekly email newsletter and on the mobile app as well.

I am excited to keep my business in the Town Planner for years to come.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Kirner', followed by a long, horizontal, wavy line that extends across the width of the signature area.
