

April 28, 2007

Alan,

As you requested, I wanted to give you an update on our experience with the Town Planner. We did very well last year as you know but I really can see that the people of this community have a great affection to your product. The Town Planner has now surpassed everything else we do. We are averaging 4 to 6 coupons a day. Based on our experience with the 2006 edition we expect those numbers to stay consistent throughout the year.

As we have discussed, we plan to stay with you for the foreseeable future. Thank you again and keep up the good work.
