Dear Town Planner of Roseville,

Advertising with you has been awesome, awesome, awesome!! Your community publication is full of valuable information for families. No one is doing anything like it.

Sales people are always coming in and trying to sell me advertising. I tell them that I bought another year with the Town Planner Calendar because it works so well! If it's not broken, then don't fix it.

We love what Town Planner has done for our business. The coupons keep coming in. Other advertising has not worked as well and we've tried a lot of different local advertising.

We're happy that we are already reserved for the next calendar. We expanded into another city for even more new customers.

I highly recommend the Town Planner to other businesses because it is affordable and it works.

Thank you,
Fu Lin
Owner
