Thank you for assisting my business with the Town Planner coupons.

We have done many forms of advertising in the past but have since stopped all but yours as we did not see a return on our investment from the others.

It seems that for some other mailings the envelope does not even get opened but yours hangs there for 30 days at a time so that people remember to use it - and they do!

I have recently opened a new location in another area and with all the bills that I'm paying to get that one going it is nice to know I have advertising for my current location that is affordable and works. I hope to add coupons for the new location as soon as I can.

Thank you.
