

Dear Town Planner,

Being in the Town Planner calendar has been a great experience. We receive a coupon from the calander at least once a day and they are usually from people that haven't tried our pizza before. Not only have we gained tons of new business, but it has also given us an opportunity to reach customer's that we haven't seen in a while. Our customers love the coupons we place in the calander because the are completely different from any other coupons we have out. I have already signed up for next years calander and I look forward to being apart of the calander for years to come.

-Patty, Owner
