

“The thing that drew us to advertise with the Town Planner was the sense of community the calendar provides. As Alpharetta only funeral home for over 100 years we are always looking for ways to get involved with the community. The Town Planner is just the type of thing that allows us to do that.

The thing that we were MOST impressed with thou was the Return On Investment (ROI) from the calendar. Almost immediately the coupons were mailed into us and we were able to quantifiably track the revenue brought in through the use of the calendar.”
