

When Scott first approached us to advertise in the Town Planner, we EXTREMELY skeptical. Owing a family run business for 3 generations, we have seen and heard it all when it comes to advertising. Advertising in calendars was not at the top of our list to allocate marketing dollars to.

Now all I can say is that we are VERY happy with our choice to advertise with the Town Planner.

What we like most about the Town Planner is the response we receive. Nowhere else have we received the type of daily exposure that we receive from the Town Planner.

The Quality of the advertising is above and beyond other advertising we have done in the past. The results speak for themselves.
