Dave Fiola

Town Planner

"I first met Dave in BNI. I am not one who does a lot of advertising so I was skeptical about the Town Planner. Dave and I met to discuss our businesses. I promptly scheduled another appointment to hear his full sales pitch.

Town Planner is a great concept. I have had numerous comments on my Ad from my clients which builds credibility and also we have seen an increase in inquiries for our services. I don't know where else you can reach so many people, so many times for such an affordable price. Dave is a top notch guy who is a lot of fun to work with. He knows his product and he did a lot of research to make sure my ad was designed to not only convey the message I wanted to send but also to make sure the design was consistent with what has been effective for other insurance agents that have advertised in Town Planner across the country.

I highly recommend Dave and the Town Planner."
