Subject: Testimonial

We have advertised with the Town Planner for two years and as marketing manager, and part owner of the Holistic Support Center, I have found that it has been the best marketing venue we have used. We saw immediate results within the first week that the calendar came out!

We have advertised in other ways, and found that for the price and the duration of the advertising, it is by far the best way for any business to get their name out in our community.

Thank You Town Planner
