

# GORDON OPTICAL

family owned since 1935

February 28, 2013

I am happy to provide a testimonial because the Town Planner has been a major factor in growing my business. In the last twelve years or so, I have gotten **many more new customers** from the calendar than anything else I have done, plus the coupons come in throughout the year.

I have cut down on other sources because of the calendar response. Another plus, exclusivity keeps the competition out!

Count me in for 2014!!!
