Dear Donna,

The Town Planner ad was the advertising move that jump-started my small business. I tried a few other local options which did not work out, but my TP ad paid for itself in the first 6 weeks. As a matter of fact, I booked my first new customer a day before I got my own calendar in the mail. I can definitely say I turned a profit from this ad within 6 weeks and would strongly urge any small business to take advantage of this great local resource.

Sincerely,

Sarah Barra
