

# CANINE BODY SHOP

I have been working with the Town Planner for more than five years now. In my business, doing a good job keeps people coming back. But it also means referrals for my business. That's why I participate with the Town Planners. It helps me reach my target market, those families with animals that are within a 5 - 7 mile radius. And I like being part of a community resource too. I've had great success with my coupons and you can too!

Thank you Town Planner,

*Cindy List*
