I have advertised with the Town Planner since they started 2003. This is the only piece of mail that busy people seem to save. I advertise on my slower months with coupons for boarding and coupons for our dog training classes, gun dog training, doggie daycare and our monthly program on the other months. We even have people give the coupons to their friends who might need our care or help over the year. Tom and Anne are very helpful and try very hard to advertise with the customers who advertise with them.

We recieved many coupons and phone calls from the Town Planner calender...
