Dear Sam,

Wanted to let you know that your Town Planner calender continues to be a popular advertising option for my Veterinary hospital.

We get a good response to the coupons and they have been a draw to bring in several new clients during the years.

We have been working together on advertising in the Town Planner calender for a number of years and it has always been advertising money well spent. I have tried a number of other advertising methods over the years, but the Town Planner calender is a consistent return on my advertising dollars.

I would also like to mention that you have always provided great customer service and stay in touch with your clients to make sure they are satisfied. Each new advertising year you always get in touch with me to confirm existing coupons or if we would like to make changes. Thank you for that.

Sincerely,

Doug Johnson

Manager/Owner  
 Myoma Animal Hospital
