May 14, 2008

Dear Cathy,

Just a note to say thank you for allowing me to be part of the very first Town Planner for Stouffville. As a budding photographer it felt great to be in such good company and have professional recognition. That calendar flew out of my office! I have sold three pictures as a direct result of the calendar, and four more as an indirect result. I was also invited to join in a prestigious art show when I used the calendar as part of my portfolio. At the art show, I was invited to have my work juried for a very large art show downtown. It's one thing to think of yourself as not bad at what you do, but to receive the kind of feedback I did from exposure in the calendar was 'way beyond what my expectations! My pictures are now in the Toronto District School Board offices, (I gave them a calendar when they paid a visit and one thing led to another) and in three private homes. One is scheduled to be hung in the Town offices the end of this month.

So thank you thank you!!!!

Looking forward to working with you again this year on the 2009 edition!

Cheers!

Karen
