and related services

December 20, 2011.

Jeff,

When I decided to inquire about the services you have to offer for advertising in the Town Planner calendar, you took the time to listen and understand what my company has to offer and what my target market was. Then you created a plan and sat down with me to explain the many different options you have available and design a marketing plan that would work best for me and my company.

Since discovering the services and options you offer with the Town Planner, it has become clear to me that using your calendar as a primary marketing tool is a no-brainer. It is the perfect tool which keeps the user informed of upcoming events while keeping my company name and message in their eyesight and in their mind all month and even all year long.

I look forward to doing more business with you in the future, and I will continue to recommend your services and the Town Planner to everyone that has a message they want people to see.

Sincerely,

A handwritten signature in blue ink that reads 'Mark E. Cummings'.
