Dear Marlene,

We have been advertising with Town Planner for several years and have noticed the great impact it has on our company. We receive several calls throughout the week regarding our advertisements in the Planner. Some of our most valued customers have come to us through the Town Planner as well as many wonderful new Customers. The Planner is a very smart and effective way to advertise!

Your quality and great service is highly appreciated. We look forward to advertising with the Planner for many years to come.

Sincerely,
