February 15, 2008

Brenda and Jim are the nicest people to do business with. We have been advertising in the Town Planner community calendars for a few years now. It is a great way to promote business by keeping our name in view of potential customers for the entire year! The coupons are a lot better than having a sale because our customers love them and can use them at their convenience. We have just renewed for our 4th year and recommend the Town Planner to anyone who wants to advertise their business!
