I am a real estate agent in Floral Park NY and have advertised in Town Planner since 2010. My ad has been featured every month in the 2010 and 2011 Town Planner Calendar. For years I have invested in the local newspaper, housing guides, and various websites in my area. None of these sources of advertisement have brought more notoriety than the 2011 Town Planner Calendar. The attention I have received from this publication has been overwhelmingly successful. Jerry convinced me to put my photo in my ad and now people actually come up to me to say they have seen me on their calendar at home. Frequently a prospective client, that I've never met before, comes to my office and points to me and says that their here to see me. The only place I have my photo is in Town Planner. In 2010 we finished number one in closings at 65, nearly doubling the second place realtor. The only thing I have done different is to advertise in Town Planner and I truly believe that was the edge.

Jerry is personable and professional and will help you every step of the way. I have already signed for 2012 and have added a second area edition, New Hyde Park. I expect the same results there too.

Sincerely
