Dear Joyce,

I am so pleased with the Town Planner! This is my first year with the Town Planner and since 2012 began I have been filling my appointment book with pony party dates like never before.

Joyce, your creation of my ad was such a pleasant experience. My approval of each step from color choices to design and fonts were of the utmost importance. My satisfaction and needs were your first priority.

I am pleased to advertise in something attractive and useful; something that is kept in kitchens and is at my client's fingertips throughout the year.

This has been a great investment and well worth the return.
Count on me for next year.
