Terie,

The response from the Town Planner has been immediate. The coupon redemption has been very good but more importantly most of the redeemed coupons have been from new customers!

My customers like the calendar because it is useful, has great coupons and they enjoy the quotes that I was able to post within it.

Working with you has exceeded my expectations, and they were not low to begin with. I especially enjoy our philosophical conversations!

As for improvements, I wouldn't be a guy if I didn't suggest hot babes in skimpy clothes for a men's edition!

I am happy to renew for 2009 and to continue the successful relationship we have built so far.

Sincerely,

Dan Barber
