Tony Selinger
Publisher
Town Planner Community Calendar

Dear Tony,

As I renew my sponsorship of the Town Planner Community Calendar for 2010 I also wanted to provide you with some positive feedback from my experience. I've found the calendar to be a great marketing method for connecting with customers in the community. Some of my customers who live just outside the mailing zone have complained that they did not receive a calendar so your expansion to other editions will be anxiously awaited. In the meantime, the extra calendars you provided clearly came in handy.

I see the calendar coupons come back quite often, sometimes 2-3 or more in a single day, which is favorable for a neighborhood auto service shop. Town Planner has brought in some new customers and helped keep my repeat customers coming back. I recommend that other area businesses consider marketing in the Town Planner calendar to build their brand and increase customer visits.

Sincerely,

Mike Reuben
