FORD

Marcia

I have been using Town Planner for 3 years now and my customer response has been getting better and better every year. Of all the advertising we do and all the coupons we have out there we get the most response from our Town Planner coupons. When we first started out with Town Planner I was skeptical and the response was ok but the longer we have been in it the response has been much more than I could imagine. I am hooked and am a Town Planner for life!
